"The quality of work is very good. I've always been satisfied with whatever final product Triface International delivers."

PROJECT SUMMARY

Triface International animated company and product presentations for an engineering solutions company. The team also offered professional guidance on what the client should incorporate into their website.

PROJECT FEEDBACK

High-quality presentations have stemmed from Triface International's efforts. The client is highly appreciative of the team as they've consistently delivered within the set timeframe. Their project management and communication practices have also been impeccable.

The Client

Introduce your business and what you do there.

I'm the CEO and owner of Jagdamba Enterprise, an engineering solutions company. We are into designing, supplying, and executing glass technologies worldwide.

The Challenge

What challenge were you trying to address with Triface International?

We needed help with our company presentations, so we hired Triface International.

 **Hemal Bhachech**
CEO, Jagdamba enterprise

 **Energy & natural resources**

 **India**

The Approach

What was the scope of their involvement?

Triface International helped prepare our company presentations. The team did a couple of animations to showcase our technical products and technologies, like gold refining plants, along with flowcharts of our processes. We offer a range of heating and cooling systems and Triface International helped animate a training module on how to operate these, detailing how it looks and how it works.

We supplied our company profile, photographs, and videos that could be incorporated into the presentations. They wrote the script but we were the ones who edited it. They compiled everything and made presentations that we could use for marketing and promotional purposes.

They also provided professional expertise when we were making our website. Triface acted as consultants and we considered and incorporated their suggested photographs and animations. We formatted the site based on their guidelines.

What is the team composition?

We're in contact with the owner. We've been introduced to four other people who worked on the design and formatting of the content.

How did you come to work with Triface International?

I searched online and found a few companies on the first page of the Google search results. I talked to these companies over the phone and found Triface International, particularly the owner, to be quite responsive. He provided us with the right information and also came to meet us. We knew he would be perfect for the job.

How much have you invested with them?

We've invested around \$15,000–\$20,000.

What is the status of this engagement?

We started working together in September 2016 and the partnership is still ongoing.

The Outcome

What evidence can you share that demonstrates the impact of the engagement?

The quality of work is very good. I've always been satisfied with whatever final product Triface International delivers.

How did Triface International perform from a project management standpoint?

The team's project management is good. They deliver within the established timeframe. Content sharing and communication are usually via email and over the phone, while presentations are all done on either email or Facetime.

What did you find most impressive about them?

I'm very satisfied and impressed with their work. If I need to make similar presentations, I'll definitely go ahead with them for all future projects.

Are there any areas they could improve?

They could hire more people to work with them. I found it difficult to coordinate with the team about one of our 4-5 projects. This could have been because of a shortage of staff or because they had several projects going on at that time.

Do you have any advice for potential customers?

Provide them with the right information and content. Triface International will best be able to do the job if all the right materials are provided.
