

UI/UX Web Design, Dev & Illustrations for Digital Studio

PROJECT DETAILS

📁 UX/UI Design, Other Design, Web Development

📅 Jan 2018 - Ongoing

💰 \$10,000 to \$49,999

“*Triface International's turnaround times and quality have been impressive.*”

PROJECT SUMMARY

Triface International provides ongoing web design and development services for a digital studio, including UI/UX design, WordPress and PHP web development, 3D illustration, and animation.

PROJECT FEEDBACK

Triface International's developments and designs are of high quality, and they offer a professional approach. The team excels at meeting deadlines, and they're very communicative. Clients can expect a dedicated partner with the ability to keep track of the project.

The Client

Introduce your business and what you do there.

I'm the director of my own digital studio called Studio Penny Worth.

The Challenge

What challenge were you trying to address with Triface International?

Triface International is my to-go agency for web design and development. They help me with projects for both my own company and my clients.

The Approach

What was the scope of their involvement?

Triface International helps me build websites, and their services include UI/UX web design, web development, 3D illustrations, and animations. We sometimes use WordPress, and other times we use PHP platforms, depending on the client's needs.

What is the team composition?

Chittranjan (Founder & CEO) is my main point of contact.

How did you come to work with Triface International?

I found Chittranjan on an online portal over ten years ago, and we connected. When we first engaged, we worked on an extensive project for an e-commerce store that had been going on for six months. I wanted some illustrations and technical drawings, and he did them.

On that first project, I noticed how professional he was. He delivered the assets on time, and his pricing was great — everything aligned together. After that project, I learned more about his other services, and we've been working together since then.

How much have you invested with them?

I've spent around \$25,000–\$30,000.

What is the status of this engagement?

Chittranjan and I started working together around June 2012. However, I believe that the company he owned had a different name at the time.

Triface International was established around 2018, and I've continued working with him in this new company. I've gotten a decade of service from him.

The Outcome

What evidence can you share that demonstrates the impact of the engagement?

Triface International offers good and professional quality. I keep bringing business to them because of their UI/UX design skills. They deliver everything on time, and they're very good at communicating as well.

How did Triface International perform from a project management standpoint?

Chittranjan always tries to keep track of everything, and we communicate mostly through email. However, I don't know if he uses any tools internally for project management.

What did you find most impressive about them?

Triface International's turnaround times and quality have been impressive.

Are there any areas they could improve?

Sometimes, one of their team members makes typing errors, so I have to proofread everything, but that's all.

Do you have any advice for potential customers?

If you're going to work with them, just trust them – they'll take care of your project.
